ECO FRIENDS BACKGROUND

- Eco Friends was founded in April 2017.
- This is a manufacture company in India at a very large scale.
- Till this day, Eco friends has more then 10K thousand customer which we are serving them with different platform for example eBay, Colompo Ltd, Supermarkets in Coventry.

WHY WE NEED CHANGE?

- Not only UK but the whole world is currently suffering from the use of plastics
- As per government article 177 million tons of plastic is currently being generated in England alone.
- Human use of plastics is causing harm to wild and the planet as whole
- It is important to reduce the use of plastic and eventually replace.
- Biodegradable material can help in reducing the use and can replace plastics
- Introducing the environmentally friendly product to the UK

VISION

- Becoming an industrial leader through our environmentally responsible practices and products
- Minimize waste
- Maximize efficient utilization of material and conserve resources.

OBJECTIVES

- Our objective is to produce quality, functional, and durable products with social and environmental consciousness.
- We aim to create an environment of stability and constant development.
- We can guarantee and over-exceed your satisfaction with all of our great products.
